

SOMMER CABLE Microphone Cable 2x0.34 100m bk CLUB

High-quality microphone cable

Art. No.: 3030744P

GTIN: 4049371001915

**List price: 189.21 €**

incl. 19% VAT.

Description:

The wire diameter of 2 x 0.34 mm² is impressive and the electrical data speaks for itself: A cable giving great performance at an excellent price, used for stage and studio settings.

The large diameter and the low capacity guarantee outstanding transmission quality, even over long distances. The shielding made of polished copper wires is 95 % optically opaque (instead of the usual 85 %).

The robust, rubberlike, matt outer sleeve is preferred by stage musicians and guarantees the highest flexibility even in lowest temperatures.

Now also available in an FRNC-version!

Features:

- High transmission quality due to wide cross-section 2 x 0.34 mm²
- Very low capacity due to pe insulation
- Outstanding shielding due to dense shielding
- High flexibility makes it easy to reel
- Made in Europe
- For application areas such as: Installation; homerecording and studios; stage

Technical specifications:

Cable construction: 2 x 0,34 mm² microphone cable
