Overhead microphone stand, extendable up to 390 cm, long boom + counterweight

Art. No.: 60005868

GTIN: 4026397270457

The article is no longer in our assortment.

Description:

All good things come from above!

To amplify the signal of music instruments you need microphones of course. Concerning trumpets, violins and such, there will be no problems as the mics can be attached to the instrument. But what do you do with the drums, or rather the cymbals. Now it is the time for our overhead microphone stand. With its maximum height of 3,90 metres it is nothing for it to reach the cymbals from above. Now, simply mount a microphone and that's it. Our stand is very stable and fully shock absorbing and is not only suited for cymbals. Choirs or just everything that has to be reached from above are part of its field of activity.

Features:

- Fully shock absorbing
- Boom arm adjustable
- Height universally adjustable
- Easy to assemble
- Adjustable height
