Description:

Reliability is always important. Especially at professional events the breakdown of any part of the equipment cannot be accepted. The DPMX-1216 dimmer pack series is the right answer here because it plays it safe: this universal output stage has an automatic circuit breaker on every channel, so single failures can be corrected without causing a complete blackout. Another benefit are the different outputs. Pole connector, safety plug, CEE or multipin: the DPMX-1216 19" serves really any kind.
