Description:

Lush greenery for indoor decorations.

Whether for your wellness area, the sunroom or in the commercial sector - the multi-stemmed betel nut palm from Europalms is the perfect addition to your oasis of well-being.

While real plants need a lot of light and water, this artificial plant is absolutely easy to care for and does not even resent temperature fluctuations.

The slender pinnate palm here consists of three cane-like trunks of different heights, whose typical, ring-shaped leaf scars are clearly visible. At the top of the stems, long fronds form a crown. They have only one petiole and appear as if they were formed from a single oval leaf.

A plain gardener's pot serves as a stand and makes it easier for you to pot them in a suitable planter.
