Description:

Mediterranean flair without time-consuming cultivation!

In the twinkling of an eye, you can transform your hotel, your wellness landscape or your sunroom into a feel-good oasis with the artificial phoenix palm. With a total height of 240 cm, it is not to be overlooked and convinces with a modern, high-quality processing. This is especially evident in the artificial palm trunk bent directly above the plant pot, which can hardly be distinguished from its natural model. The bendable palm fronds are equipped with leaves made of textile fiber material.

The artificial plant is delivered in two parts: the trunk and the palm crown, which is pre-assembled on a shaft, only need to be put together and the fronds bent into shape.
