Câble de micro SC-MICRO-STAGERef.: 244E
GTIN: 4026397581898

**Prix de catalogue: 153.51 €**

TVA 19% incl.

Description:

The shrinking violet among the microphone cables is the new AES/EBU-capable SC-MICRO-STAGE.

Though it may look somewhat inconspicuous at first sight, it splendidly meets the most essential requirements of contemporary live and studio technology.

It has a cold-flexible, soft PVC jacket, a low capacitance and is very easy to handle.

The compact cable diameter of 5,80 mm is ideal for using stereo jack connectors and XLR connectors with a small cable passage like they are still very popular e.g. overseas or on the US market.

When used as a patch or MIDI cable, it will occupy only very little space in your patchbay or in the home studio.

Due to its tight, concentric litz stranding and the foamed Skin PE wire insulation, the SC-MICRO-STAGE can easily transmit analogue and digital signals 110 ohms over distances greater than 100 metres.

Caractéristiques:

- Haute qualité de transmission grâce à l'utilisation de brins fins
- Très robuste grâce à l'épaisse gaine en Soft-PVC
- Bon blindage grâce à une tresse de cuivre dense
- Grande flexibilité, donc facile à enrouler
- Made in Europe
- Pour des domaines d'application tels que: Enregistrement à domicile et studios; scène

Logistique

EAN / GTIN: 4026397581898

Poids: 4,06 kg

Longueur: 0.23 m

Largeur: 0.23 m

Hauteur: 0.15 m

Données techniques:

Conception du câble: 2 x 0,14 mm² câble de microphone

Longueur du câble: 100 m

Couleur: Noir

Poids: 3,89 kg
